

Safety Alert

ISSUE: September (1) 2014

In this report, we bring together information on mandatory and voluntary consumer product recalls originated from China, HongKong and Taiwan, which are issued by governmental bodies from Europe, USA and Canada. For businesses, notably for product manufacturers, this report aims to enable them to move more swiftly to address a safety problem, thereby reducing the number of incidents causing injury, and the costs associated with them. This could lower the safety risks, which could, in turn, lower insurance costs for producers.

Then, in July 2011, based on the guidelines and voluntary standard, CPSC issued a federal regulation. CPSC's actions demonstrate a commitment to help prevent children from strangling or getting entangled on neck and waist drawstrings in upper outerwear, such as jackets and sweatshirts.</p>	<p>Consumers should immediately remove the drawstrings from the garment to eliminate the hazard or contact Benetton for a full refund.</p>
