

Safety Alert

ISSUE: December (2) 2014

In this report, we bring together information on mandatory and voluntary consumer product recalls originated from China, HongKong and Taiwan, which are issued by governmental bodies from Europe, USA and Canada. For businesses, notably for product manufacturers, this report aims to enable them to move more swiftly to address a safety problem, thereby reducing the number of incidents causing injury, and the costs associated with them. This could lower the safety risks, which could, in turn, lower insurance costs for producers.

Situation in last two weeks

An overview is given of notifications by product category and type of risk from December 6, 2014 to December 26, 2014. It should be noted that some notified products presenting more than one risk. Numbers of notification by product category are:

- Children's products & toys (74)
- Softlines (46)
- Miscellaneous (29)
- Electrical & electronics (21)
- Hardlines (5)

Remark: Information on product notifications is from EU Rapid Alert System for non-food dangerous products (Rapex), Consumer Product Safety Commission of United States and Health Canada.
